ABOUT ME

Web Developer with a strong foundation in front-end design and hands-on experience in modern backend application architecture. Proficient in building responsive client-side interfaces using React, Next.js, and modern CSS frameworks, as well as developing robust server-side APIs with C# and ASP.NET Core. Able to manage multiple priorities efficiently, adaptable, energetic, and eager to learn and master new technologies.

EDUCATION

TUF - The University Of Faisalabad | CGPA: 3.0 Faisalabad, Pakistan *Bachelor of Computer Science*

WORK EXPERIENCE

Frontend Web Developer — Aiksol Technologies | Faisalabad, Pakistan

July 2024 – Present (10–12 Months)

- ✓ Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, React, Next.js, and modern UI frameworks.
- ✓ Built and deployed a medical billing platform (OSOZ MBS) featuring clean UI architecture, modular components, and optimized client workflows.
- ✓ Designed and implemented an AI-powered grading platform (MorkNHire) with interactive candidate dashboards and real-time user feedback.
- ✓ Integrated front-end components with back-end APIs and ensured cross-browser compatibility
- ✓ Collaborated with designers and developers to translate UI/UX designs into functional web pages

Backend Developer (Project-based / Intern)

(2 to 4 Months)

- ✓ Designed and integrated RESTful APIs using C# and ASP.NET Core framework.
- ✓ Implemented Entity Framework Core for data modeling, database migrations, and efficient query execution.
- ✓ Handled JWT authentication, user authorization, and end-to-end API testing using Swagger.
- ✓ Connected client-side interfaces with backend services to build reliable full-stack features.
- ✓ Developed a complete Employee Management System (EMS) to streamline employee records, role management, and operational workflows.

SEO & Digital Outreach (Freelance / Collaborative Projects) | Remote

2025 – Present

- ✓ Collaborated with peers on SEO strategy development, keyword research, and on-page optimization
- ✓ Successfully acquired two clients through outreach, pitching, and portfolio presentation
- ✓ Assisted in improving website visibility, search rankings, and organic traffic growth
- ✓ Coordinated with clients to understand business goals and align SEO efforts accordingly

PROJECTS

Final Year Defense Project | TUF, Faisalabad

Sept 2025 – June 2026

- ✓ Built a React Native mobile application for short-term jobs and micro-task management
- ✓ Used Firebase Firestore, Authentication, Cloud Functions, and Cloud Messaging for back-end services
- ✓ Implemented secure login, real-time communication, and task tracking features
- ✓ Followed Agile (Scrum) methodology and best practices for scalability and security

AI Grading Web Application | *MorkNHire*

- ✓ Built an AI-powered grading web application using MongoDB for data management
- ✓ Integrated Ollama (LLaMA 3) for automated answer evaluation and intelligent grading
- ✓ Implemented Whisper for speech-to-text and text-to-speech functionality
- ✓ Designed responsive dashboards for candidates and recruiters with real-time feedback
- ✓ Ensured secure authentication and scalable full-stack architecture
- ✓ Followed Agile (Scrum) methodology and best practices for development

Medical Billing Web Application | *OSOZ MBS*

- ✓ Built a professional medical billing website designed to showcase healthcare billing services and attract potential clients.
- ✓ Developed responsive and user-friendly interfaces to present medical billing solutions, services, and company information.
- ✓ Implemented modern UI/UX practices with reusable components, responsive layouts, and intuitive navigation.
- ✓ Optimized the website for client engagement, lead generation, and professional presentation of medical billing expertise.
- ✓ Ensured cross-device responsiveness, performance, accessibility, and maintainable front-end architecture.
- ✓ Followed modern web development best practices to deliver a scalable and professional client-facing platform.

✓ **Employee Management System (EMS)**

- ✓ Developed robust RESTful APIs using C# and ASP.NET Core with Entity Framework Core for data modeling and migrations.
- ✓ Implemented secure JWT authentication and role-based access control (RBAC) to restrict unauthorized user permissions.
- ✓ Conducted end-to-end API testing and validation using Postman to ensure endpoint reliability.
- ✓ Integrated the backend services with modern responsive front-end components for seamless user interaction.

EXTRA CURRICULARS

Welfare Society

- ✓ Active member involved in community service, social welfare initiatives, and volunteer activities

E-Gaming Society

- ✓ Participated in competitive gaming events, team coordination, and infra-society tournaments
- ✓ Developed teamwork, strategy, and communication skills

Literature Society

- ✓ Active participant in literary discussions, debates, and writing activities
- ✓ Contributed to event organization and intellectual forums

SKILLS

Technical skills
